Friday 10th October 2014

9:00~17:30

KTH Environmental Humanities Laboratory

Division of History of Science, Technology
and Environment

Teknikringen 74D, 5th floor

The **KTH Environmental Humanities Laboratory (EHL)**, at the Division of History of Science, Technology and Environment, was founded in 2011, thanks to a generous private donation and KTH internal funds. The overall goal of the EHL is to shape a post-disciplinary intellectual environment that combines education, research and graduate training in innovative ways and sets knowledge in the humanities into action to favour sustainable development.
